

# RAGHAV SALES CORPORATION

PRODUCT CATALOGUE

## Acrylic Lift & Roll Body Glasses

We present our range of superior quality of Flour Mill Acrylic Glasses. These products are available in different specifications as per the requirements of the customers. Clients can avail these products as per their need in industry. Acrylic glass pipe for air lock or lift. Sizes also available in 60, 75, 88, 100, 113, 125, 139, 150, 190, 250 MM, etc. Roll body glasses are also available in taper & 300 x 300mm.

## Air - Lock

We are Leading Manufacturers of Best Graded Cast Iron Air Locks or Rotary Air Valve for flour mill & other food processing industry duly seasoned to stand tropical conditions. All faces and bores are accurately machined by imported c.n.c machines to ensure the perfect alignment. We offer the best range of Rotary Air Locks are available in various specifications. we Offered product is stringently tested on various parameters to deliver flawless range at the clients end.

## Anti Vibration Mount

We present our superiour Quality of Anti-vibration Mount for vibration absorption and noise reduction. These products are available in various sizes and load capacity. The most effective and easily applied remedy for vibration and shocks. This section shows the angular disposition of the rubber attached to metal weld. Loaded in shear and compression the rubberis used to the best advantage to provide capacity for heavy loads with large deflections

## Bearings & Blocks

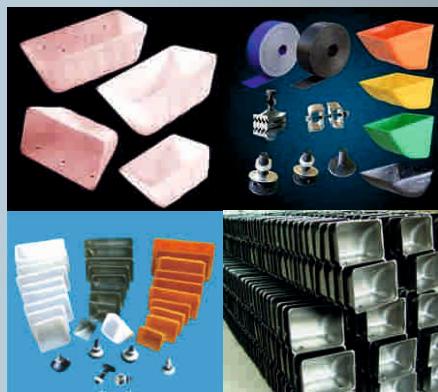

Various type of branded bearing for various application ball, roller, taper, thrust, needle, pillow, rod end, cam roller, clutch bearing, single row, double row, deep groove, self alighting, angular contact bearing etc. We have achieved high acclamation in the industry for offering a top-of-the-line gamut of Bearing. Cast Iron Plummer Blocks are available in different models Viz NSK, S, SN, SNA, S.D. etc. Pillow Block & Bearing Sleeves are also available in different sizes & models

## **Bucket**

Seamless German type elevator Buckets made from Prime CR Iron sheets in various thickness 19/18/14/16 SWG. Size range 2.5 inch to 14 inch. Also available in Stainless Steel and High Pressure Injection Molded Agricultural Food Grade Plastic.

## **Shovel TYPE**

Type Elevator Buckets are available in Food Grade Plastic and M.S. Fabricated Iron Sheet. Advantage of Shovel Type Bucket. Maximum intake of grain approximate 30% more than seamless bucket. 100% fall of grain in target, no back.

## **BELT FASTNERS AND BUCKET BOLTS**

We present our best quality Bucket bolt & Fasteners in various design & sizes in Mild Steel, galvanised steel and Stainless steel metal. We used in high quality raw material and latest technology. Our organization is engaged in offering best-in-class Fastener. Offered in various designs and sizes, these fasteners find wide application in household in many industries. Bucket Bolt belt fasteners Sizes also available in 1/4"x3/4", 1/4"x1", 5/16"x1", 5/16"x1-1/4", 3/8"x1-1/2", 3/8"x2", etc. leather punch available insizes 6,8,10,12mm

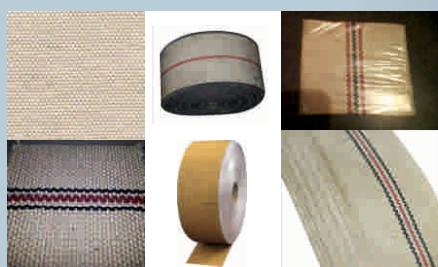

## **Chain & Sprocket**

Industrial roller chain & chain wheel (Sprockets) available in pitch 3/8", 1/2" 5/8", 1", 1 1/4 ", 1 1/2", in both American standard & British standard brands of chain available: Diamond, Rollon, CHJC, Euro etc. Chain & its Spares Lock, Half link, attachments, etc. are also available in Stainless steel.

## **COTTON, COTTON-NYLON & RUBBER BELTING**

We present our wide range of cotton elevator belt, Cotton Nylon mix belt are available in 7mm, & 8 mm thickness. Cotton nylon belt suitable for pulley transmission. Hair belt suitable for oil mill. With an increase proportion of technology.

## COUPLINGS

We Present our various type of Power transmission coupling Pair: Star Coupling, tyre coupling, Flexible Pin Bush Couplings, German Type Muff Couplings chain coupling. showing our wide experience in this domain, our company Offers various sizes of Couplings to the clients. Our clients can avail from us a wide range of couplings these products are widely used in food products industry and other industries.

## Food Grade Rubber Belting & Ball

We present our superior quality of food grade rubber elevator Conveyor belt & Food Grade High Bounce Rubber Balls. Rubber transmission beltings are available in 3,4,5,6 Ply's in cotton & nylon thread with Top and Bottom rubberised for conveyors and elevator. These conveyer belts are available in 6,8,9,10,12 mm Thikness. food grade Rubber Balls Also used in Plansifter, Vibro Separator, Rotary Separator and other vibro machines these balls are available in 16,20,25,30,38 mm in round shape.

## GEAR BOX

Our Comprehensive range of Gear Boxes include horizontal, vertical and universal models in various ratio and we also engaged gear boxes as per customer specification. Also available its spares alloy steel worm, phosphorus bronze worm Gear wheel, wheel shaft, oil seals and bearing. showing our wide experience in field of Roller Flour Mill, Rice Mill & other food product industry. This product is examined on well-defined parameters of quality.

## Geared Motor

Our Comprehensive range of Geared Motors include Worm Geared Motors, Helical Geared Motors, Helical Bevel Geared Motors etc. for Roller Flour Mill & Rice Mill & other food Industries. also available in various RPM/Ratio and various H.P/Kwt. as per customer needs and specification. This product is examined on well-defined parameters of quality.

## Flour Improver

We Present our Complete Solution for Wheat Flour products to Improvement of flour, Gluten Strength, and Higher Volume etc.

Our Products ranges are available in

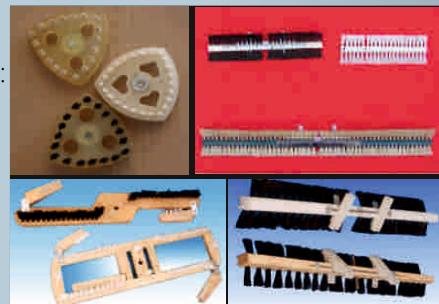

1. STROKE PLUS FLOUR IMPROVER.
2. NATURAL STRONG ENZYME.
3. NATURAL WHITE ( Flour Whitener )
4. STROKE 1000 ( Complete Flour improver & Whitener )
5. STROKE SF 100 (Quality Flour Improver )

Micro Analogue Feeder Machine is Also available

## INDUSTRIAL BRUSHES

We Present our Large variety & range of cleaning brushes : Roll body peacock / nylon / coconut hair brushes are available in 40", 50" and 60" sizes. Centrifugal leather Nylon Brush, Purifier Single & Double Clip Brush, Floor Cleaning Brush clients can avail from us the range of Industrial Brush. We provide these products to our valued clients in both standard and customized options as per their varied specification.

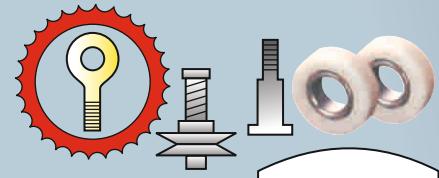

## Jet Filter Cage & Dust Collector Bag

We have gained a remarkable position in the flour mill industries and other food Products industry by offering a qualitative range of Jet Filter Cage & Dust collector bags we assure our clients that this product is highly durable and guaranteed of its quality. Also, we offer the entire range in various sizes and dimensions.

## Grader Spares

Chain & Chain wheel 76/78 teeth sprocket, Rod end bearing, Nylon wheel set with bearing & axel, Nylon Chand, Variable speed V-pully etc.

## Magnets

We present our various types Hopper Magnets of Aluminium frame fitted with power full Magnets designed to set with every size inlet mouth of grain processing machines, prevents the costly parts from harmful iron particles. Hopper Magnets are available in Round & Square shape in sizes 6", 7", 8", 9" 10" and 12" Drum/online Magnets are available in 12",15"and 18" sizes with heavy gauss power Magnets. M.S, & S.S Plate Magnate, Drawer Magnets, Rod Magnets are available in various sizes with Heavy Gauss Power and we provide any specified size against order.

## METAL SPOUTINGS

We are leading manufacturer of Metal Spouting items. Such as Pipe, Segment (Kali), Tee, Y, Divider, Pipe Ring, Tape clip and Clamp in 100 mm,120 mm, and 150 mm dia. We used 22 SWG G.I. metal and 16 SWG M.S. metal sheet as per customer requirements according to their needs. These products are manufactured by our experts employing advanced technology to ensure their quality. the offered range can be customised as per requirements of our clients.

## PERFORATED SHEETS

We are Leading manufacturers of all type of Metal Perforated Sheets. These are available in Mild Steel, Stainless Steel, G.I and Aluminium Metals in 0.4mm thick to 12mm thickness in various types of Holes. Such as Round Hole, Square Hole, Long Hole Parlar Type, Zig Zag Type Holes, Capsule Holes, Washer Whizzer, Dimple sheet, Indent Screen, Silky Screen We are using high grade raw material and latest technology in compliance with international standards.

**ROUND HOLE:** Available sizes in 0.80mm to 25.4mm hole.

**SQUARE HOLE:** Available sizes in 5, 6, 8, 10, 11, 12, 13, 16 and 20mm hole.

**LONG HOLE :** Available sizes in 1.0x 20mm upto 6.0 x 20mm holes.

**TRIANGULAR HOLE:** Available size in 2.75mm & 3.00mm Hole.

## Bolting Cloth

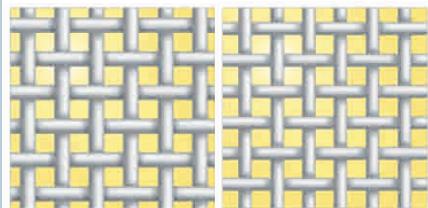

We are authorized Stockist of Saati Mil Flour Milling Fabrics These include a broad range of fabrics for sifting applications, from flour to pharmaceuticals, with an extensive selection of fabric types and mesh openings.

Our products are manufactured in accordance with ISO 9001:2000 and are suitable for food contact.The Saati mil XXX grades have a large Fiber size and are used for hard grades of Wheat and Durum or other abrasive grains. The Saati Mil GG or Grit Gauge grades are woven with coarser opening sizes with smaller Fiber to provide a higher screening capacity.

## PLAN SHIFTER SPARES

We present our wide range of Plan Shifter Spare Parts. Such as Wooden Frame 500 x 500mm with fitted G.I. & S.S. 304 Grade Jail, Cotton Pad Imported & Local, Perforated Sheets, Dub Sheet, Taper Dholak Balls (in white rubber, hard milky, PVC transparent), Triangular Brushes, Staples & Gun Tacker, Cotton Tape, Paper Gum tape, Namda (Felt) Tape, 16mm round high bounse Rubber Ball, Upper & bottom G.I. Rings & Filter cloth bags. Wire Rope (Rassa) 12mm U Bolt and bolting cloth etc.

## SaatiMil™ Flour Milling Fabrics

## Pneumatic Bends & Pipes

We Present Our wide range of Pneumatic pipe Bends. These bends are also available in 75/ 88/ 100/ 113/ 139 mm sizes with different radius 500/ 750/ 1000/ 1500mm For Flour Mill, Rice Mill, Dall Mill, & Other Food Industries. Metal Spouting Pipes are also Available in 100mm, 120mm and 150mm Dia.

## Pneumatic Feeder

We present our wide range of pneumatic feeders are also available in various types & Design 280 x 113mm, 250 x 100mm, 250 x 88mm, 250 x 75mm. And any other specific size also available on customer needs.

## Pneumatic Cyclone & Blower Fan

We present our superior quality of Pneumatic and Dust Cyclone & Blower Fan with its features:

- Efficient in separating solid particles from air or liquid
- Structure simple and is easy to operate
- Combined air-sucking mode
- Compact structure, small volume, high efficiency
- Convenient maintenance and stable performance

Blower Fan with features:

- Consistent performance
- Negligible maintenance
- Excellent steel fabrication
- Diversified applications
- Well balanced impeller
- Low noise pollution
- Based on global quality standards

## PULLEY

We present various types of C.I. pulleys are available in V-Belt type with huge ranges from 2" to 42" in various groove. Sections viz, Z, A, B, C, D, and E in pilot bore or fitted with taper lock bush. Crown phase patta pulley ranges from 4" to 36" in single piece (solid) and two piece (split). M.S. bar fabricated patta pulley made with special skit state of the art suitable for Rice Mill & Flour Mill elevator. Vibrable Pulley. We are renowned as one of the most profound manufacturers of Pully, Robust in construction, our clients can avail from us a wide range of pulleys in various capacity and designs. At our manufacturing unit.

## Purifier spares

We present our wide range of Purifier Machines spare Parts are available in various type of Single and Double Rod Wooden Frame, Brushes in Plastic and Wooden Body, Vibro Pad (Damaru), Rubber ball etc. We are engaged in offering the broad assortment of Single & Double Rod Wooden & Aluminium Frame, to our valued clients. Available in various customised options. We used best grade components and the latest technology, these are designed in complete compliance with the set universal standards. These products are highly demanded in the market for their durability and reliability.

## Roll Body Pulleys & Gears

In our wide range of products, we are supplying our clients a comprehensive assortment of Flour Mill Roll Body Gear Set & Roll Body Drum Shape Plain and V-belt Pully & Spares. Our offered products are manufactured using superior grade components and contemporary technology. Tested against various quality parameters, we assure that all our products are in compliance with international standards. Furthermore, we avail these products in several technical specifications as per the demand of clients.

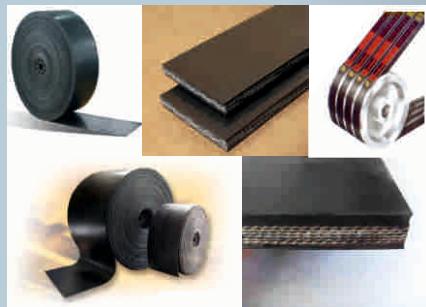

## Rotameter

Rotometer 0 to 500 lph 0 to 1000 lph & solonaid valve 1/2" and 3/4" facilitated by technically advanced process, we are presenting a distinguished collection of Flour Mill Rotameter. Our offered meters are provided with suitable features that enhance their functionality and usability. These meters are widely popular across the market for their compact design. The offered range is manufactured at our ultra-modern manufacturing unit using finest quality components and modern technology.

## Rubber Beltings

We present our wide range of Rubber Transmission Belting also available in 4, 5 or 6 ply. Conveyor belting top & bottom rubberised for conveyors & elevators available in 6/8/9/10/12 mm thickness with cotton or nylon thread 1/2/3/4/5 or 6 ply. We are exporting, trading and supplying high quality Rubber Transmission Belting. Our offered range finds application in various industries. This product is fabricated using superior quality raw material and advanced technology our quality experts strive hard to provide a flawless range of products at the clients end.

## Vibro Motor

We Present Vibro Motor in 1 H.P. 1440 RPM For DE-Stoner machine & Vibro separator machine to vibrate the machines.

## Rubber Spares

We Present Our Wide Range Of Rubber Spares also available in Lift Glass Rubber Sleeves, Air-Lock Rubber Sleeves, Rubber Cap, Rubber Ring, Rubber Balls in Round & Dholak Type, De-Stoner Rubber Sleeve, Rubber Vibration Pad ( Damru), Rubber Washer, Rubber Star For Coupling etc. In various sizes & specifications.

## Screw Conveyer

Screw conveyors are characterized by the enormous spread of possible applications-virtually without any compromise. In process engineering. technical processes for example [such as Mixing, Heating, Moistening, Cooling,] can be logically combind with the conveying process.

- Dust free and odourless handling due to the possibility of completely sealing off the through.
- Simple integration into an overall system, since the product can be charged and discharged at any point.
- Flexible and space-saving design, Efficient cleaning.

## Synthetic Felt Namda Tape Cotton & Paper Tape

We present our wide range of quality product synthetic felt Namda sheet & Tape. Also available in various type of thickness. Namda / Felt tape are also available in 12mm, 15mm, 20mm, 25mm sizes. Cotton Tape & Paper Gum Tape also available in customs sizes as per customer needs.

## Test Sieves

We present our Superior Quality of standard Test Sieves. In 8" Brass Frame Dia With Fitted S.S. 304 & 316 Grade Wire Mesh Jali in Various size & specification for Flour Mill laboratory.

## WIRE MESH JALI

we are Leading Manufacturers of wire mesh jali also available in various type like Crimped mesh, Double Crimped mesh, Square mesh, Hollender type mesh, G.G. mesh, Chatai type mesh in S.S. 304 & G.I. Metal, Spring Steel which is used in Flour Mill Machinery such as intensive scourer, De-stoner, Plansifter, Vibro separator, Rotary separator, we are using high grade material and latest technology in complaisance with international standard.

## WORM BLADE AND WoRM HANGER

We present the best range of Worm Blade & Hanger. This is precisely fabricated using premium quality raw material and sophisticated technology. Owing to their various salient features, The offered range is available in various dimensions and other related specifications as per the varied needs of client Worm Blade thickness 3mm, 4mm : 6", 7", 8", 9", 10", 12" & any odd size against order.

Worm hanger range : Worm support hanger with GUN METAL, Metalon & TEFLON Bush in split position available in 2 sizes 1.5 " & 2".

## Rubber Vibration Pad -Damru

We are engaged in offering Vibration Rubber Damru & Metal Bush For Vibro Purifier. These products are manufactured using topmost raw material with the help of advanced technology and machines in adherence to set industrial standards. The offered products are available in various configurations & specifications as per the requirement of our prestigious clients. Moreover, the products offered by us are delivered within committed time frame. Vibration rubber Damru for Vibro Purifire, MTR, Destoner, Vibro Separator.

## DRUM SIEVE MACHINES

We offer various range of Drum Sieve Machines, which is very versatile and is used mainly in the intake section of granular and floury bulk material in flour mills, silos, food provider and chemical industries. Coarse impurities like straw particles, string, paper, wood pieces, mare leaves and cobs etc. are separated from the grain. Drum Sieve Machines are used for certain leaning operations and to prevent operational faults and damages caused in conveyors and downstream machines.

## DRY-D-STONER MACHINE

We keep on manufacturing a wide range of various machines that are known for offering impeccable performance. Dry-D-Stoner Machines is known for removing stones or other impurities like stones, glass pieces, fragments of metals etc. These machines are highly durable and capable of performing as per industrial standards. Due to higher efficiency of Dry-D-Stoner Machines, Easy to operate & handle .custom designed as per Seeds/ Grain size,it is well received across markets.

## COCIL CYLINDER

Saifco Length grader, indent cylinder type, Separates one or two kind of broken or shorter grain from hole whole grain by length. Broken grain or shorter grain which is more than half of whole grain in length cannot separate from whole grain by a sieve or thickness / width grader. Accordingly, this machine is must for rice millers and exporters who wish to obtain the high quality products.

## INTENSIVE DAMPENER

Being the leader in manufacturing and supplying a wide assortment of modern Food Processing machines we keep on developing an array of more such machines that are helpful for clients. We offer Intensive Dampener which is an advanced version of available machines used for processing grain. Due to finest performance and versatility of intensive Dampener, it is well received in the market.

## HAMMER MILL (PULVERIZOR)

We are offering Hammer Mill (Pulverizor) which crushes the cereals and grains by beating them with hammer. This special grade machine is designed and developed keeping in mind various standards. For dry and wet crushing of brittle medium-hard materials of various sorts, Hammer mill offered by us is best suited. At reasonable prices Hammer Mill (Pulverizor) is available.

## INTOLATOR

We remain instrumental in offering a comprehensive range of various engineering components that are useful for Food Processing purposes. Intolator offered by us serves as degenerating machine therefore it is widely used in flourmills, rice-mills etc. Using the principle of centrifugal force which is responsible for removing harder particles, intolator works. We also provide customization facility and are capable of providing Intolator machine at reasonable price.

## ROTARY SEPARATOR

we are offering a wide variety of useful Rotary Separator. These separators are made of high quality raw materials that are sourced from trusted vendors. These separators use principle of rotating the grains at very high speed to remove extraneous materials. For various agricultural purposes Rotary Separators offered by us, is most suitable.

## INTENSIVE SCOURER

Our team of highly knowledgeable engineers and designers, keeps itself engaged in offering finest variety of machines that are applicable for various functions. We are proud manufacturer of horizontal intensive scourer which is an advanced cleansing machine extensively used for agricultural uses. Intensive scourer offered by us useful in removing soil dust, sand, pin oats, small seeds, and all other related unwanted particles. At affordable prices Horizontal Intensive scourer can be availed.

## REEL MACHINE

Our Reel Machine is an ideal machine for precleaning purpose Available in Various sizes (12 sieve, 3sieve & 4 sieve with sieve cleaning brush) This machine is used to separate out fine and large size impurities.

## Vibro SEPARATOR

We are offering various high quality Vibro Separator with Aspirator. These Aspirator are widely accepted across global markets. Our technologically advanced manufacturing unit is capable of meeting all high demands of clients. These machines are highly durable and efficient. At reasonable prices Vibro Separator with Aspirator will be availed.

## ELEVATOR

We present our range of superior quality elevator. We are using high grade raw material and latest technology in compliance with international standards. Split Hood for simple installation and servicing. Replacement wear plate, inspection-and cleaning port at the discharging point, Dust protected bearings, drive with gear motor and chains coupling, integral revising lock for safe and reliable operation. Optionally with internal liner in wear resistant plastic.

## BRAN FINISHER ( VIBRO )

We present our highly advanced food processing machines that help introducing better and higher yield. WE ARE Offering Bran finisher ( Vibro ) which is a sophisticated machine used for proper finishing of grains. This machine separates all the adhering particles from bran and thus helps in giving higher yield of flour. All the important works like grading, sieving and sizing of coarse particles are done by these machines. We offer customisation in terms of sizes and other specifications. At reasonable pieces Bran finisher(Vibro) can be availed.
